Poutama in partnership with the [EMA](#) (Employers and Manufacturers Association) present Poutama Tangata - a 12-month group coaching programme aimed at helping Māori enterprises, in particular small & medium-sized businesses (SMEs) across Aotearoa with their 'people' needs and requirements by:

- Focusing on tools and techniques to help you lead your people while they are working for your organisation
- Building business owners confidence in leading their people
- Creating the right culture to attract and retain your people

COVID-19 has identified a growing need for Māori SMEs to have good access to quality 'people' expertise and advice.

These are FREE one hour online group coaching sessions with EMA's HR Specialist Nikki Iuli held the third Wednesday of each month. Beyond these sessions, 1-on-1 support is available at a special rate.

This HR coaching programme is suited for business owners, managers, and staff responsible for looking after workplace contracts, policies and procedures, remuneration, training and development, performance measures and wellbeing.
